## WORK EXPERIENCES

### Frontend developer (volunteer work) - Mariano

*Nov 2025 - now*

Built and maintained a responsive website in Next.js with Tailwind CSS and Strapi. Contributed to improving the user experience and collaborated with the team to create accessible and user-friendly solutions that support the organization's work.

### Frontend developer - Neovici AB

*Sep – nov 2024, jan – april 2025*

During my LIA, I developed modern user interfaces using lit-html, Haunted, JavaScript, and TypeScript. I worked on bug fixes, code improvements, new components and features, and design adaptations from Figma. I participated in frontend and UX/UI meetings and worked both independently and in pair programming. The internship gave me valuable hands-on experience working in a tech environment.

### Degree Project - Company Page for HVAC Company (React)

Developed a responsive website for a plumbing company using React. Implemented contact form and service section and deployed via Vercel.

**X-ray nurse 2014 – 2023**
